

Alphabetical Index of Plays and their Authors

Over the years, pressure on space has meant that many of the titles we publish have been removed from our catalogues. This is a list of all our plays and theatre books. Every attempt has been made to ensure the accuracy of this list, but there may be some omissions and some titles may no longer be in copyright or handled by us.

However, we will be able to point you in the right direction if this is the case.
